

PRINTSMART IS THE ONLY SCANNING APP YOU NEED FOR LEAP LEGAL SOFTWARE

PrintSmart for LEAP is the only cloud-based solution that helps you securely manage data workflows across your practice, making it easy to report and allocate document management costs direct to your matters and clients.

Cost Recovery

PrintSmart for LEAP automatically allocates the cost recovery amount to the matter the document has been scanned to, whilst recording which user completed the work and when.

Cloud Enabled

Our cloud enabled devices send your documents directly to your Microsoft Office 365 document storage, or for Legal Professionals, Scan to LEAP and LEAP Cost Recovery.

No Document Size Limits

PrintSmart for LEAP can handle hundreds of pages per single scan reducing time spent on capturing documents to a single file and/or matter helping improve overall integrity and consistency of your document management.

Save Time

With PrintSmart for LEAP, everything is done in one action and captured automatically reducing these tasks by saving each individual up to 60% of the time it would take following the traditional methods.
